

Trip Review

New Zealand

A Client Review of a 2006, JOURNEYS New Zealand Adventure

By Brenda Protheroe

The trip was outstanding! As you know, the scenery is indescribably beautiful and the activities interesting and varied. Brian did a superb job of guiding us and providing really compelling experiences, even on the two rainy days. He was charming, knowledgeable, responsive to requests, intuitive about people's needs/wishes and great fun to be with.

In addition we were blessed with wonderful travel companions who had, like us, traveled extensively and we were all in agreement that Brian set the gold standard for tour planning, organization and guiding. He struck an excellent balance between being on the move and taking in all that the areas we visited had to offer and having sufficient "down time" for relaxation. The accommodation and meals were excellent, the sights unforgettable and the personal interactions involved much laughter, respect for each other's perspective and insights into life in New Zealand. I would highly recommend this trip!"
